Download

You can download IRun from here. You can install the software by just extracting the zip file to an empty directory.
You can find IRun.exe which is a tiny program to test "irun.dll" in the zip file.

Compatibility:
Windows95,98,NT,2K,XP. Currently only "ansi" RTF files are supported.

Please report bugs to support@pilotltd.com , you may attach the source file for which you encounter problems.
